

Deleting a user from the list of users

The process of deleting a user in a list is quite straightforward.

In your main instance, select “Students”, then “List of all students”

If you are administrator of your system you will see an “X” next to the name of the users. By clicking the “X” you indicate you want to delete the user. A dialogue-window will be shown to confirm the deletion of the user. By deleting the user, the user will no longer appear in the list of users.

Nr.	Last name	First name	Email		Last login
1.	Acuña Fernández	José Luis	acuna@uniovi.es	X	10/11/2010
